

Tips for Your Mentorship: Reservist or National Guardsperson

- Discuss differences in corporate experiences for someone in the Reserve/Guard versus a civilian.
- Discuss the differences between military structure and corporate structure (e.g. how authority is organized, how to stand out positively in both, climbing the corporate/military ladder).
- Read a book together on a topic related to either the job or military and discuss together.
- Discuss how military service can help with networking in the corporate world.
- Develop 2-, 5- and 10-year plans for the Protégé and see where their military service fits into this.
